How can you not feel on top of the world when standing atop a bridge 700 years old - like the iconic Swilcan Bridge at St Andrews? That's how we want you to feel in this home plan. With a first floor study and guest suite, chef-inspired gournet kitchen, and expansive living area with 3-panel sliding door leading to a covered porch, you'll feel like royalty in your own pajamas. Just venture upstairs for even more space and storage. It's pretty iconic if we do say so ourselves.
