How can you not feel on top of the world when standing atop a bridge 700 years old - like the iconic Swilcan Bridge at St Andrews? That's how we want you to feel in this primary-down home plan. With a first floor study and guest suite, chef-inspired gourmet kitchen, and expansive living area with 3-panel sliders leading to an extended covered porch, you'll feel like royalty in your own pajamas. Just venture upstairs for even more space and storage. It's pretty iconic if we do say so ourselves.
