 **1,932+ Sq. Ft.**

 **3 Bedrooms**

 **2 Bathrooms**

 **2 Car Garage**

As our lives have become more automated and inextricably connected, we value the intentional slowness and presence a copper kettle commands. Your home is the place it's safe to slow down and be the more deliberate version of yourself. Take time to enjoy the beauty of one floor living with thoughtful separations of space and room to explore the possibilities of a flex space. Use the space however your life deems.
