Great Storytellers know exactly how to grab your attention whether it's the smallest of details to transport you inside the story or with prolonged suspense that has you sitting on the edge of your seat dying to know what happens next. This plan unfolds like a good book, a charming family room setting that reveals more as you make your way through the dining area. The kitchen island invites you into a large kitchen tucked neatly along the side of the home. A pocket office behind the kitchen keeps you proximate but still productive. On the second floor the primary suite sits at the top of the stairs featuring a large walk-in closet and en suite shower. You'll also find two additional bedrooms, another bathroom and a laundry closet - ideal for a stacking washer/dryer. Tour the Storyteller to see if this is one where your next chapter begins.
