When you're looking for a home that's not too big and not too small. With a Primary Suite on the main floor but room for kids or guests upstairs. And it would be cool if the bathroom connected to both secondary bedrooms. Ooh, and maybe a loft space upstairs for another gathering space? Also storage is a must. And what if it had an open first floor with a gournet kitchen that was perfect for entertaining? And laundry on the main floor too? A screened porch for cool fall evenings? Sounds Bliss(ful), right? That's because it is.
