In the words of Pharrell, “clap along if you feel like a room without a roof!” Even though every room in this home has a roof, it still makes us happy enough to clap along. First, we’re clapping for the stunning gourmet kitchen that seamlessly flows into a spacious Family Room, stretching the entire width of the home - perfect for gatherings and game nights. Then there’s the enclosed pocket office tucked by the powder room, so you can stay productive even when staying hydrated. And how about a screened porch? It’s the ideal spot for fresh air and relaxation, rain or shine. The applause doesn’t stop there! Upstairs, you’ll find 3 bedrooms, with room for everyone to find their own happiness. Plus, with the Diamonds & Pearls curated interior package, every detail shines with timeless elegance.
