Calling all the big dreamers and even bigger doers - this one is for you. The Creator embodies the start from scratch mentality with purposeful spaces designed just for you. A mudroom to help you unload from the day, a pocket office for focus and productivity and a large kitchen for experimenting with new recipes or inviting friends over for takeout from that new place you've all been wanting to try! Upstairs two bedrooms connect through a shared bath. The hallway offers a laundry closet perfect for a stacking washer/dryer. And down the hall, your oasis awaits in the Primary suite, with a shower large enough to dream of your next big idea and a walk-in closet that rivals those newly inspired grand plans.
