SOLD OUT! Holding Village is quite literally a breath of fresh air. The entire community has been designed around enchanting outdoor spaces, with acres of old growth trees that harken back to days when people had time to enjoy the simple things in life. In fact, while we do have high-speed internet, it's really there just to help you get work done more quickly—so you can get back outside and embrace nature's magnificent splendor. Like 35-acres of inviting green space, miles of meandering hiking trails, six playful parks, and, of course, Holding Lake. This 15-acre waterhole beckons with kayaking, tree swings, fishing holes, camp fires, and even some old-fashioned stargazing. Of course, there are things you'll love at Holding Village that have nothing to do with nature—like the captivating homes from our Playtime and Cinema Collections. With five different plans to choose from, you're sure to find the ideal indoor retreat that balances perfectly with your new outdoor lifestyle.

Embrace the outdoor life at Holding Village. Joyfully Built. Meaningfully Different.

All square footage is approximate. Renderings are artist's conceptions and may vary slightly from the actual home. Homes may be built in reverse of plans shown, depending on site conditions. Minor architectural changes may be made occasionally at the option of the builder. Please contact your Sales Consultant for details.
