For a song that has stood the test of time we offer a plan we think can do the same. Etta James tells us she's found a dream in her iconic hit, At Last and we offer this plan in her honor and at last. A primary suite on the main floor alongside a well designed kitchen, living, dining area all anchored by an outdoor covered porch, it's a dreamy space to call home. Upstairs two bedrooms connected by a shared bath and a large media room can accommodate the folks you share you life with, without cramping any your style on the main floor. This home is a bit of the old, a bit of the new and just like the song, it could be the one you've been waiting for all along.
